

# POWERSCHOOL + SCHOOLENGAGE

## What does it do?

---

Once you register for the PowerSchool Parent Portal, you will be able to:

- View student grades (Grades 5+)
- View student attendance
- Set up email notifications
- View teacher comments
- Make changes to your demographic information
- View school information
- Set up account preferences

## How do I get access?

---

Once you register with NLPS, your child's school will send you information about how to log in to your Parent Portal account. If you are already registered with NLPS and do not know how to access your account, please contact your child's school for assistance.

## What is SchoolEngage?

---

SchoolEngage is an online repository for all of the forms parents may need to fill out during the school year.

Most parents who are new to the division will have registered their children through SchoolEngage.

We also use SchoolEngage for Preschool, Out of School Care and Transportation registration, and for our annual Student Update and Verification Form, which Alberta Education requires us to have on file for every student on an annual basis.

Because School Engage is linked to our student information system, many of the forms will include fields that are pre-filled to save time. Online forms also means less hunting for paper in backpacks and saves on printing costs.

Visit the Parents section of the Northern Lights Public Schools website for more detailed information.
